

wooden posts

. about CarmoFarm

Guided by our mission — **Quality wooden solutions, built for agricultural performance** — we offer integrated, technical solutions to modernize and protect your plantations. Our wooden posts are the cornerstone of that mission: a robust, sustainable solution for crop support across the most diverse farming regions, combining tradition, innovation, quality and sustainability — core traits for farmers seeking durable, effective solutions suited to modern agricultural conditions.

Wood we are.

. wooden posts

CarmoFarm's treated **wood posts combine durability and sturdiness**, making them an excellent choice for agricultural support. The combination of high-quality raw materials, innovative production techniques, Class 4SP autoclave treatment, and rigorous quality controls ensures that these posts can **withstand the elements** and **endure high forces of compression, torsion, and bending**.

Treated wood products eligible for FSC® and PEFC certification

CONIC POSTS

Strength isn't the only thing that sets our treated wooden posts apart: at CarmoFarm, we go beyond standard recommendations, treating our wood to a class above the standard Class 4 — Class 4SP — and applying rigorous **quality control** across the entire production chain, from forest to finished product, backed by a **guarantee of up to 20 years on our treated wood products**.

This dedication to excellence is recognized both **nationally** and **internationally**, making us the supplier of choice in the most demanding agricultural markets.

STAKES

Our stakes are specially designed to support young trees, from planting through to the maturation stage, adapting to different types of plants and crops. In addition to their pointed **design and rounded edges**, they come in standard sizes that meet the needs of each crop.

They are made from **maritime pine**, giving them **high mechanical strength**. This robustness, combined with **Class 4SP autoclave treatment**, ensures a highly durable final product.

MACHINE ROUNDED POSTS

CarmoFarm's machine rounded wooden posts are **cylindrical** and **smooth-surfaced**, the result of a mechanical process that ensures **uniform sizing**. Known for their sleek, refined finish, they are **guaranteed for up to 20 years** against premature biological decay.
